📍 **Pune, MH, India**

Frontend-focused Software Engineer with 7 years of experience building high-performance web applications and component libraries. Demonstrated expertise in React ecosystem (**Next.js**, **TypeScript**) with a proven track record of leading development teams and delivering solutions that reduce development time and improve user experience. Strong background in creating accessible, well-tested applications with modern web technologies.

PROFESSIONAL EXPERIENCE

Lead Software Engineer
Kohler Co., Remote - Aug 2022 - Present (3yr, 2m)

- Led the development and delivery of a **reusable components library** for Kohler, managing a team of 4 developers and supporting 10+ projects, reducing development time by 30% and ensuring brand consistency across applications.
- Developed and curated a comprehensive documentation portal for the Design System using Storybook and MDX, increasing developer adoption by 65% and reducing onboarding time for new team members by 50%.
- Architected and managed a portfolio of 5+ e-commerce web applications using **Next.js**, **React**, and **Tailwind CSS**, resulting in 25% improved page load times.
- Successfully integrated a B2B payments solution using Paymetric, streamlining transaction processing and reducing payment reconciliation time by 40%, leading to the Champion award recognition.
- Implemented Okta (OIDC) Single Sign-On (SSO) with various identity providers (IdPs), improving security posture and reducing login-related support tickets by 75%.
- Established and enforced rigorous code quality standards with **80%+ test coverage** and **100% accessibility** compliance, resulting in 60% fewer production issues.
- Projects: rehlko.com, kohlerhomeenergy.rehlko.com, partnerhq.kohlerhomeenergy.com, klafsusa.com, kohler.com/remedy

Sr. Software Development Engineer
Emtec Technologies, Pune - Dec 2018 - Aug 2022 (3yr, 8m)

- Developed three complex single-page applications (SPAs) for a US-based Fintech client. Utilized a tech stack including **ReactJS**, **React Hooks**, Context API (front-end), **TypeScript** & **GraphQL** (API integration), Apollo Client (state management), Material UI (component design), Jest & Enzyme.

- Owned and optimized one of five critical micro-frontend modules supporting 30,000+ daily transactions with 99.9% uptime, while implementing performance optimizations that reduced load times by 35%.
- Enhanced development efficiency and consistency by creating a **component library**.
- Successfully revamped existing UIs based on updated design requirements.
- Established industry-leading code quality standards with **98-99% test coverage**.
- Delivered key features like Referral programs, Promotional offers, and Plaid external account linking integrations.
- Projects: varomoney.com, bank.varomoney.com
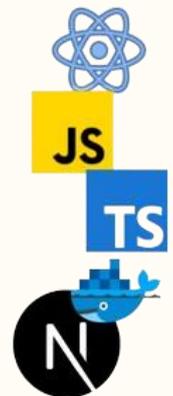

TECHNICAL SKILLS

Core Expertise: React, NextJS, TypeScript, JavaScript, Redux, GraphQL, Component Libraries, Tailwind CSS, Material UI

Development Tools: Storybook, Webpack, Babel, Rollup.js, NPM, Git, Docker, AWS

Testing & Quality: Jest & Enzyme, Accessibility Testing, CI/CD Pipelines

Other Skills: HTML5, CSS3, Styled-Components, Formik, React-Hook-Forms, Okta, Headless CMS, Agile, SDLC

ACHIEVEMENTS

- 2nd Winner of KOHLER's Tradeshow Champion award, recognized for my contribution to developing innovative solutions
- Champion award at KOHLER – Awarded for the owning and integrating Paymetric E2E
- Received two P2P awards by VARO for exceptional performance
- Honored with Excellence award at Emtec for consistent high-quality work
- Achieved two Times Spot award at Emtec for exemplary contributions

EDUCATION

B. Tech. in Computer Science and Engineering 2019 – R.I.T. Islampur
